

Die

All men must die
As a man lives so shall he die
Better die with honour than live with shame
Cowards die many times before their deaths
A man can only die once
Never say die
Good americans when they die go to paris
Better to die on your feet than live on your knees
Cowards die many times before their death
You can only die once
We must eat a peck of dirt before we die
Eat drink and be merry for tomorrow we die
Whom the gods love die young
The good die young
Old habits die hard
Old soldiers never die
Young men may die but old men must die
