

Fire

A burnt child dreads the fire
Don't have too many irons in the fire
Fire and straw do not go together
Fire begins with little sparks
The fire which lights us at a distance will burn us when near
It is a dangerous fire that begins in the bed straw
Make no fire raise no smoke
No smoke without fire
Out of frying pan into the fire
Pouring oil on the fire is not the way to quench it
There is no smoke without fire
Where there is smoke there is fire
Dirty water will quench fire
Fight fire with fire
Fire is a good servant but a bad master
The same fire that melts the butter hardens the egg
You should know a man seven years before you stir his fire
If you play with fire you get burnt
Three removals are as bad as a fire
