

Think

First think then speak
God comes at last when we think he is furthest off
If you deal with a fox think of his tricks
Speak fair and think what you like
Think before you speak and look before you leap
Think not on what you lack as much as on what you have
Great minds think alike
Think first and speak afterwards
Think global act local
Think twice cut once
Young folks think old folks to be fools but old folks know young folks to be fools
