

Tree

He that plants a tree plants for posterity
He that would have the fruit must climb the tree
A tree is known by its fruit
When the tree is fallen every one runs to it with his axe
The apple never falls far from the tree
He that would eat the fruit must climb the tree
When the last tree is cut down the last fish eaten and the last stream poisoned you will realize that you cannot eat money
You cannot shift an old tree without it dying
As a tree falls so shall it lie
The tree is known by its fruit
As the twig is bent so is the tree inclined
A woman a dog and a walnut tree the more you beat them the better they be
